General Contractors:

As stated in the depository cover letter sent to each participating general and by way of reminder, unless alerted by a general contractor, subcontractors have no way of knowing of potential problems in their bid as ***“only you will have access to the data which may expose an error in any given sub proposal as the Bid Service does not have access to the bids until after the general bid opening. Therefore, it is essential that you contact any sub in question prior to the bid opening...”***

All BBS Users/Participants:

It is through the comitment of our users/participants that we can provide an environment which drastically reduces the potential for damage to all parties involved in depository projects.

Please be responsible bidders!

Contact us with any questions and/or suggestions that could help improve depository procedures.
